

DISCRETIONARY PROP TRADING

www.ltjmanager.com

Step 01

PURCHASE ACCOUNT -

**Choose from one of our
six different account
values to purchase.**

Step 02

LTJ SET YOU UP -

**Once your purchase is
complete, LTJ will take
3-5 days to set up your
account and payment
preferences.**

Step 03

RECEIVE PAYMENTS -

**Sit back and enjoy our
services, with pre-set
payment intervals.**

Our job starts once you are onboard. We spend time to understand your goals, your needs and give you a detailed plan on how to integrate our service and achieve them.

We also understand that keeping up to date is essential and that doing so needs to be at the discretion of you, therefore our software allows you to keep up to date whenever you want to check up on the latest movements 24/7/365.

Why LTJ?

Here at LTJ Manager we've invested where it matters, our clients.

Our team have used their decades of experience to implement A.I. and Machine Learning algorithms into an automated trading process which has seen ground breaking steps in everything we do and afforded us the opportunity of offering our services to the general public world wide.

For many years we've made double digit returns for those that treat their investments as a tick box exercise, largely because our clients have been institutions that do not value relationship and service in the same way that they do following protocol for their business.

Well we've had enough of that and we want to make a change, because its time to make it personal.

So much so, that our customers need not purchase our software directly. We offer fully managed services that allow LTJ to hold the hand of an absolute beginner or seasoned professional.

Because all of our contacts deserve the right to belong to the winning team.

Developing our software was only the tip of the iceberg.

***"LTJ Manager has been
created to bridge the gap and
become the trading partner
that gives you what you need."***

Discretionary Prop Offer

Rather than utilizing the standard asset management services, we decided to engineer a service that would allow all parties interested in the world of investing to genuinely consider the options of working with the pro's.

Typically the minimum investment of £50,000 is a tall order for anybody outside of the wealthiest 1%, but not anymore. Through our prop partners we are able to offer the same level of investment for as little as £5,000. The service allows our clients to open an account for up to £1,000,000 paying only £50,000 in the process.

The upfront payment becomes the amount you are risking, so please assess what is right for you.

The main points to consider are below;

- you own your account (we provide an LTJ Trader account in your name)
- you receive 100% of the profit until your initial fee is returned
- profits split 50/50 (once you have received your initial investment back)
- your risk is the upfront cost, there is no risk associated to the trading account and yourself
- there is no limit to how much you can have with us or the number of accounts you can hold
- while we grow the accounts, our prop partners offer to increase your account, the end goal can result in £4,000,000 of investment funds
- you have your own account manager to talk to throughout the whole process
- we can set profit intervals that we make withdrawals from, either time or percentage related

Please see below the options we are able to offer. Thank you for considering LTJ Manager.

"This service is built to give access to genuine investments that can make a difference, without the need for moving large sums of money."

ACCESS TIER	GROWTH TIER	ELITE TIER
5x your Funds <i>Algorithm Opt-in</i>	10x your Funds <i>Algorithm Opt-in</i>	20x your Funds <i>Algorithm Opt-in</i>
The Access Tier is designed for individuals seeking a simple, passive entry into professional trading. With as little as £2,500, you can unlock a managed trading account powered by LTJ Manager's hedge-fund-proven algorithms. Your account is leveraged 5x, giving you exposure to a £12,500+ trading environment.	The Growth Tier offers a powerful bridge between passive investing and institutional performance. Starting at £5,000, you access trading accounts ranging from £50,000 to £500,000, managed with LTJ Manager's proprietary algorithms and real-time oversight. Accounts are leveraged 10x, amplifying your capital while we handle the strategy.	The Elite Tier is LTJ Manager's highest-level offering for professional investors, institutions, and high-net-worth individuals. With a minimum entry of £50,000, you choose the capital amount you'd like us to manage—multiplied with 20x leverage. Your trading account is customized, monitored, and optimized for maximum impact.
Access Tier	Growth Tier	Elite Tier

Offering different account levels is a strategic approach to cater to the diverse preferences and needs of clients in the financial services industry.

By providing various tiers, such as the access, growth, and elite accounts, LTJ Manager is able to tailor their offerings to match the unique requirements and investment goals of each client.

Importantly, regardless of the account level chosen, personalized support is paramount.

The onboarding process is meticulously designed to ensure clients feel supported and confident from the outset. This includes one-on-one consultations, comprehensive tutorials, and personalized guidance through the intricacies of trading.

By “holding each client’s hand” through these stages, not only do we build trust but also empower clients with the knowledge and tools they need to make informed decisions, ultimately enhancing their overall experience and satisfaction.

Growth Tier

“Scale Returns with Managed Capital”

For investors ready to step up—and see results on a larger scale.

The Growth Tier offers a powerful bridge between passive investing and institutional performance. Starting at £10,000, you access trading accounts ranging from £75,000 to £200,000, managed with LTJ Manager’s proprietary algorithms and real-time oversight. Accounts are leveraged 10x, amplifying your capital while we handle the strategy.

Key Features:

- – AI-powered trading with human oversight
- – 100% profit retention until your capital is recovered
- – 50/50 profit share thereafter
- – Performance dashboards and monthly reports
- – Managed risk with zero margin calls or additional funding required

Unlock the world of proprietary trading with our Growth Level Accounts!

We’ve transformed the investment landscape by allowing you to engage with professional traders without needing a hefty minimum investment.

With just £5,000, you can open an account worth up to £50,000, allowing you to explore lucrative opportunities.

Enjoy the benefits of a personal LTJ Manager account, retain 100% of your profits until your purchase cost is returned – then 50% for the lifetime of the account – all while knowing your risk is limited to your upfront cost.

100,000 Trading Account

10,000

We offer a full trading account to the value 100,000. This account is split 50/50 on a profit share, with all profits sent directly to you bi-weekly. This is also a premium level offering.

£

\$

€

Trading Account valued @ 100,000

50/50 Split of all profits

Profits paid bi-weekly directly to you

Algorithm Opt-in available

100% of profit until fee returned

Growth Tier

How this account can work for you

Please look at the account example as shown on the left hand side of this description.

Here we have a Growth Account example for a client wishing to purchase a £/\$100,000 account.

The purchase is made via our site by visiting www.ltjmanager.com/growthtier and choosing to pay via card or bank transfer. Once the purchase has been made our back office team will be notified and send an email asking for the details required to open your account and attach the hedge fund grade algorithm.

It takes us 3-5 days for us to process your account, at which stage we provide you with your log in details and credentials to our portal and your trading account. We will also ask you to sign our profit share agreement at this stage.

This account can be viewed at your leisure via our internal trading platform.

Once we start trading you are entitled to withdraw your profits at intervals that suite you. Our algorithm is tasked with creating wealth, not holding onto it.

Example earnings:

£10,000 Purchase Made

8-12 weeks 10% profit returned to client (at intervals suited to you)

*2% net monthly gain = £2,000 = 20% on purchase amount **EACH MONTH***

FAQs

How do I view what is going on with my account?

Once you have been onboarded, LTJ Manager will provide you with your very own trading account. This account can be viewed around the clock. From this account you can view your balance and request withdrawals.

Can I see past performance of your strategy?

Yes. Past performance is available on request. Please remember that past performance is no indication of future results, but can be used on basis to ascertain our attitude to risk by way of the algorithm.

Are you regulated?

We are regulated by the FSA in Saint Vincent and the Grenadines, this regulation allows us to operate our internal platform globally. We do not require regulation to offer our algorithm, we also are not operating client funds as the account you have is an allocation given to you by us, therefore your capital is not actually at risk via the trading activity itself.

How do I withdraw my profits?

On request of a withdrawal we will process the same day, due to global banking procedures this can take up to 3 days to hit your account but will be confirmed the same day (if done before 5pm gmt).

Who is in control or trading the account?

Our algorithm is tried and tested and also hedge fund grade. This algorithm is making decisions and trades that are 1,100% more precise than the manual trading team are capable of. Of course, we manage the algorithm to make sure it is doing exactly as it should.

Can I lose more than I put in, I see everywhere that you can lose more than your initial deposit with trading?

No. The only amount you are risking is the amount you use to purchase your account and access the opt-in algorithm. The trading risk in terms of downside is protected by us as we are providing the liquidity.

How do I know I'm going to receive my profits?

As part of our onboarding process we will send you a profit share agreement, this agreement needs to be signed by both parties and will stipulate the exact terms on how you receive your funds. We will not start trading without this contract in place, this is done to protect our customers and give peace of mind.

What platform do you use?

We own a proprietary trading platform server provided to us by Match Prime. This is the platform of choice for us based on the tools it provides and its transparency in terms of profit and loss.

How long have you been trading?

Our trading team are CF30 qualified and have been in the markets since 2006 and have traded through the credit crunch, multiple wars, black box market failures and many other scenarios that have made them qualified enough to build and manage the algorithm that we provide. LTJ Manager started in 2024 but our trading team have been together since 2018.

Do you contact me after I become a client?

Once you become a client you are assigned an account manager that is always available and that cares about the relationship.
