

LTJ MANAGER ALGORITHMIC TRADING SERVICES

Step 01

OPEN ACCOUNT –
Be assessed by our risk team and have formal agreement written up

Step 02

LTJ SET YOU UP –
Once your deposit is complete, LTJ will take 3–5 days to set up your account and payment preferences.

Step 03

RECEIVE PAYMENTS –
Sit back and enjoy our services, with pre-set payment intervals.

Our job starts once you are onboard. We spend time to understand your goals, your needs and give you a detailed plan on how to integrate our service and achieve them.

We also understand that keeping up to date is essential and that doing so needs to be at the discretion of you, therefore our software allows you to keep up to date whenever you want to check up on the latest movements 24/7/365.

Why LTJ?

At LTJ Manager, Our Commitment is to Our Clients.

We have made strategic investments in what truly matters—our clients.

Our team has harnessed decades of experience to incorporate A.I. and Machine Learning algorithms into an automated trading process, leading to groundbreaking advancements in everything we do. This innovation has enabled us to extend our services to the general public worldwide.

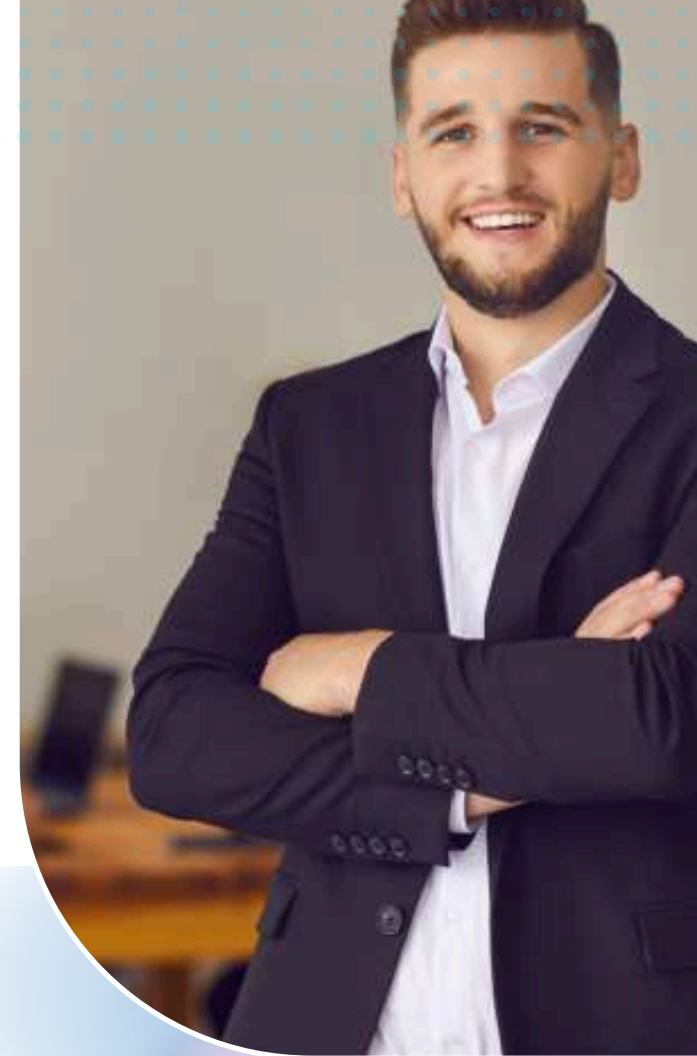

For many years, we have generated double-digit returns for clients who treat their investments as mere formalities. This success is primarily because our previous clients have been institutions that prioritize protocol over personal relationships and service.

We have decided to change this narrative because it's time to make it personal.

In fact, our customers don't need to purchase our software directly. We provide fully managed services, allowing LTJ to support everyone—from absolute beginners to seasoned professionals.

Every one of our clients deserves the opportunity to be part of a winning team.

While developing our software was just the beginning, it opened the door to so much more.

“LTJ Manager has been created to bridge the gap and become the trading partner that gives you what you need.”

Algorithmic Trading Programme

Innovative Investment Services Tailored for Everyone

Instead of relying on traditional asset management services, we have created a unique offering that encourages everyone interested in investing to explore options alongside the professionals.

Historically, a minimum investment of £5,000,000 has been daunting for anyone outside the wealthiest 0.1%. However, that's no longer the case. With our partner properties, we now provide opportunities for investment starting as low as £/\$5,000. Clients can open accounts with a capacity of up to £100,000,000.

The initial payment represents your risk, so please evaluate what works best for you.

Key Points to Consider:

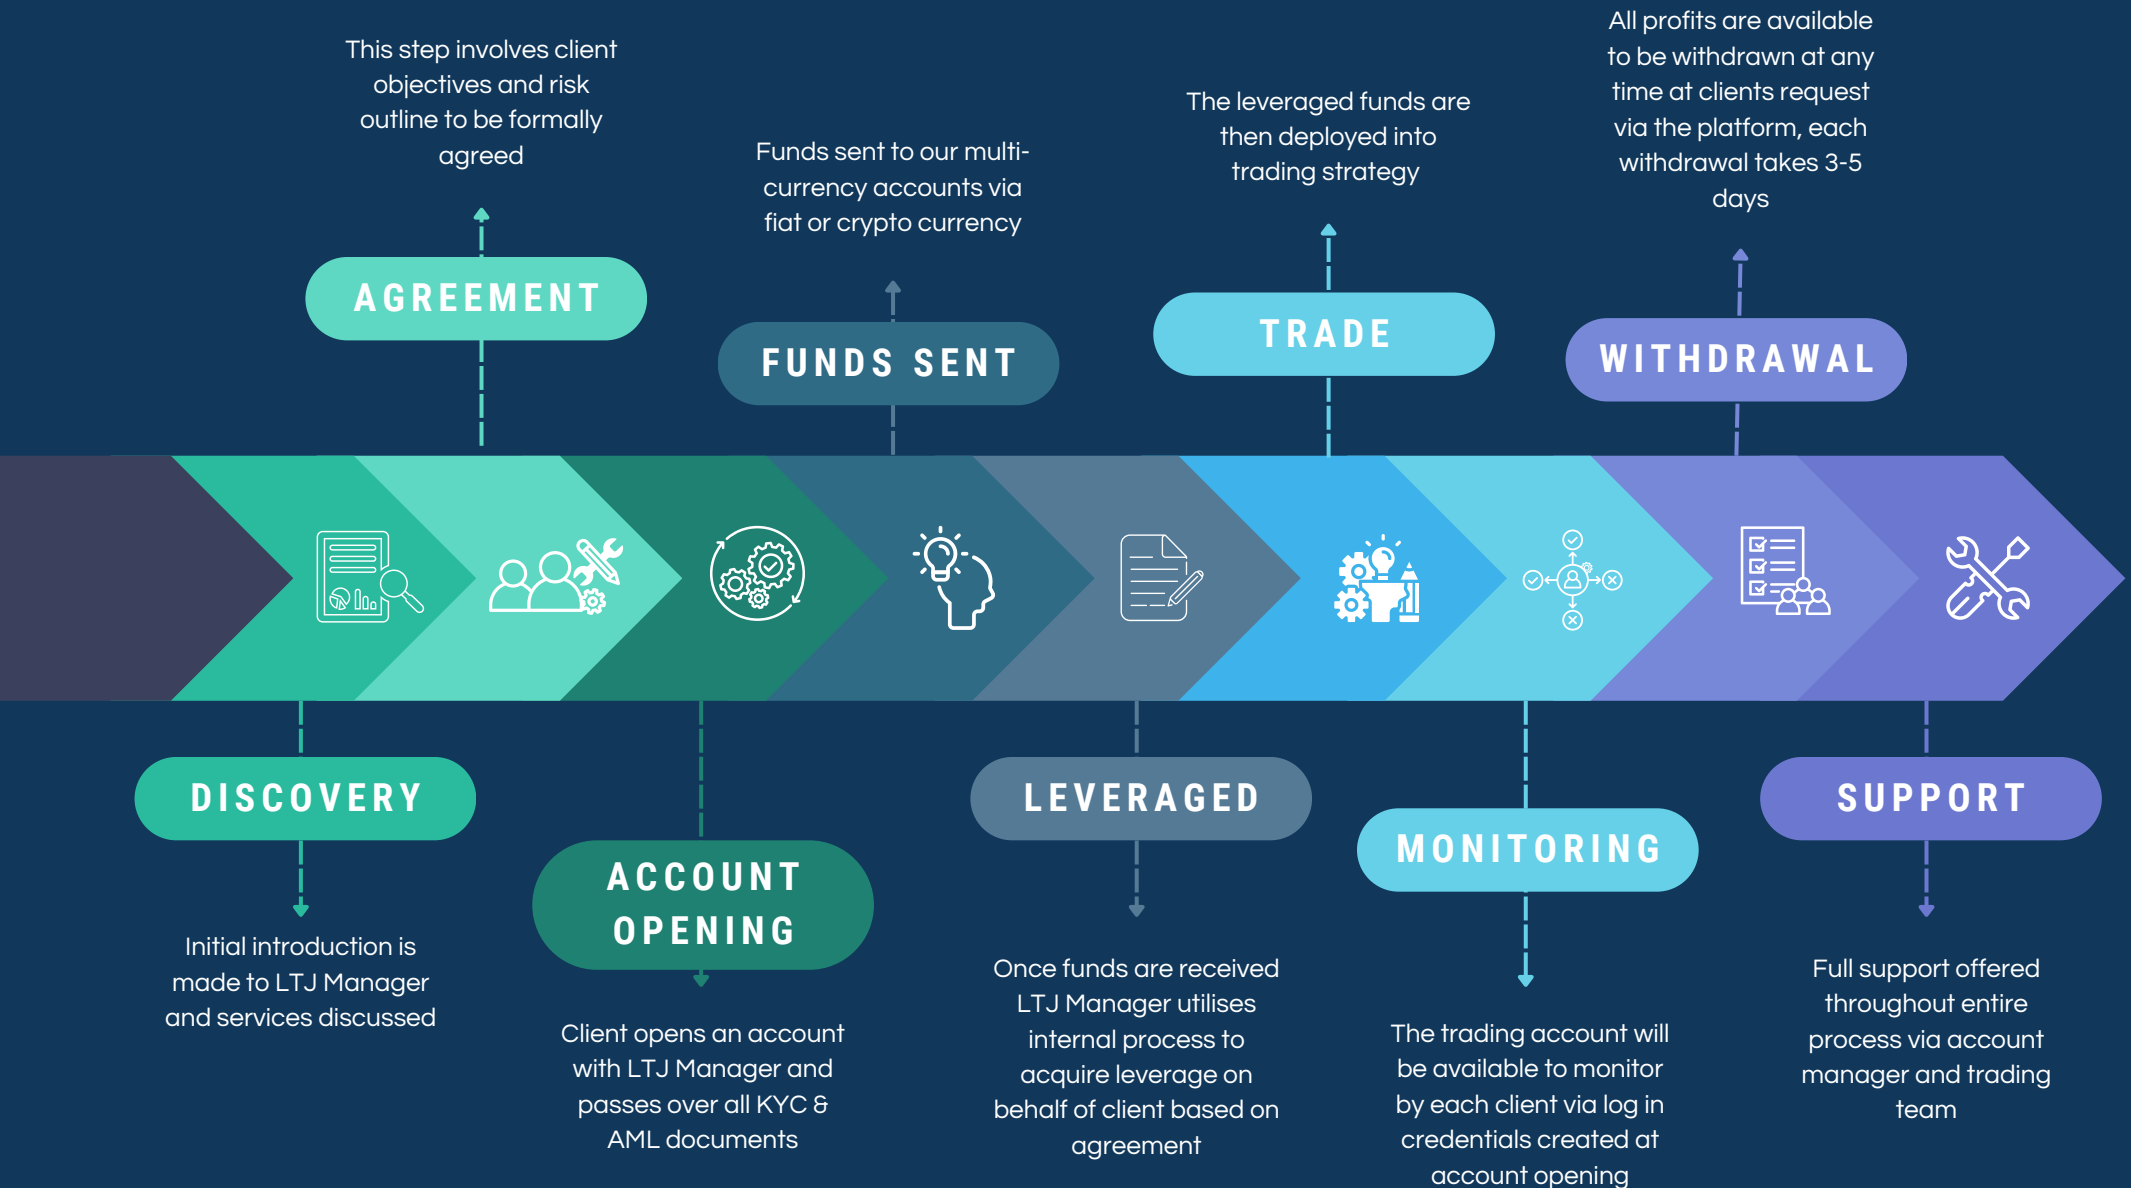

- **Account Ownership:** You will have your own LTJ Trader account in your name.
- **Profit Distribution:** Earnings are split 80/20 for the account's lifetime.
- **Risk Management:** Your only risk is the initial deposit; there are no additional risks associated with the trading account.
- **Unlimited Potential:** There is no cap on the amount you can invest or the number of accounts you can maintain with us.
- **Growth Opportunities:** As we manage your accounts, our partners may provide opportunities to grow your investments, potentially reaching £100,000,000.
- **Personalized Support:** You will have a dedicated account manager available throughout the entire process.
- **Profit Withdrawal Options:** We can establish profit intervals for withdrawals based on time or percentage.

Thank you for considering LTJ Manager. Below are the options we can provide.

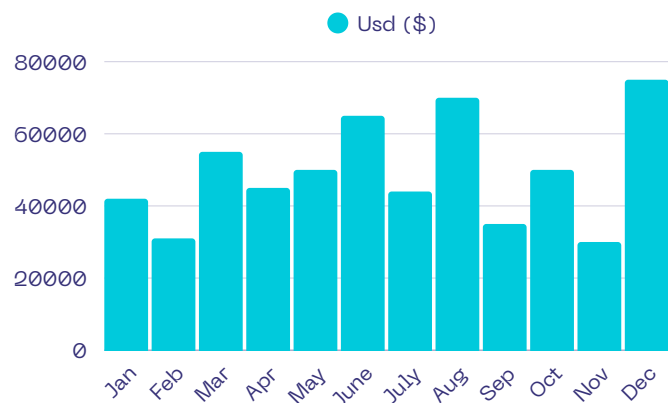

"This service is built to give access to genuine investments that can make a difference, without the need for moving large sums of money."

FAQs

How do I view what is going on with my account?

Once you have been onboarded, LTJ Manager will provide you with your very own trading account. This account can be viewed around the clock. From this account you can view your balance and request withdrawals.

Can I see past performance of your strategy?

Yes. Past performance is available on request. Please remember that past performance is no indication of future results, but can be used on basis to ascertain our attitude to risk by way of the algorithm.

Are you regulated?

We are regulated by the FSA in Saint Vincent and the Grenadines, this regulation allows us to operate our internal platform globally. We do not require regulation to offer our algorithm, we also are not operating client funds as the account you have is an allocation given to you by us, therefore your capital is not actually at risk via the trading activity itself.

How do I withdraw my profits?

On request of a withdrawal we will process the same day, due to global banking procedures this can take up to 3 days to hit your account but will be confirmed the same day (if done before 5pm gmt).

Who is in control or trading the account?

Our algorithm is tried and tested and also hedge fund grade. This algorithm is making decisions and trades that are 1,100% more precise than the manual trading team are capable of. Of course, we manage the algorithm to make sure it is doing exactly as it should.

Can I lose more than I put in, I see everywhere that you can lose more than your initial deposit with trading?

No. The only amount you are risking is the amount you use to purchase your account and access the opt-in algorithm. The trading risk in terms of downside is protected by us as we are providing the liquidity.

How do I know I'm going to receive my profits?

As part of our onboarding process we will send you a profit share agreement, this agreement needs to be signed by both parties and will stipulate the exact terms on how you receive your funds. We will not start trading without this contract in place, this is done to protect our customers and give peace of mind.

What platform do you use?

We own a proprietary trading platform server provided to us by Match Prime. This is the platform of choice for us based on the tools it provides and its transparency in terms of profit and loss.

How long have you been trading?

Our trading team are CF30 qualified and have been in the markets since 2006 and have traded through the credit crunch, multiple wars, black box market failures and many other scenarios that have made them qualified enough to build and manage the algorithm that we provide. LTJ Manager started in 2024 but our trading team have been together since 2018.

Do you contact me after I become a client?

Once you become a client you are assigned an account manager that is always available and that cares about the relationship.
